

At their meeting on Sunday, May 16 the Field Adjudication Steering Committee (FASC) voted to implement Field Percussion Adjudication for the 2010 season, on a limited basis, predicated on the availability of qualified adjudicators.

It is imperative that all percussion adjudicators (previously qualified and apprentices) receive training on the new sheets which focuses on the percussion support of the total music product. The training sessions will be offered at the Certification Seminar being held on August 14, 2010 at Aliso Viejo High School from 9 - 10:30 a.m.

This session will be repeated at the Fall conference on September 11, 2010 in Costa Mesa.

The new evaluation process emphasizes "assessment of rhythmic support enhancing the overall music program of the show."

The fall 2010 Field Show Tournament Schedule was approved at this meeting as well, and is now posted on the SCSBOA web site.
