TURN RIGHT on NIGHTHAWK WAY;

Follow Nighthawk way to fourth driveway on left and turn LEFT into Bus parking area;

Follow Ramp to Check-in location.

BUS OVERFLOW PARKING:

There is a need to establish a temporary area for overflow bus parking during the overlap when the 3A bands are getting ready to leave and the 6A bands are arriving. We would like to have all bands keep a maximum of two buses with them at the staging area and send any excess buses to the bus overflow parking area. The overflow parking area will be along Nighthawk way in the coned off section along the bicycle lane curb. We ask that all excess buses line up in the overflow area until adequate space is made in the actual band staging lot.

To get to the bus overflow lane, first drop off the kids in their designated area. Then, proceed south along the west driveway (follow the bus exit signs) and turn right at the end. Follow that service road to Hayes Ave. Turn left on Hayes and follow that street to Vineyard Parkway. Turn Left and follow that road until you arrive at Washington Avenue. Turn left on Washington and follow to Nighthawk Way. Turn Left into bus overflow parking lane (far right lane) and follow to the end. Line the buses up leaving a five foot clearance in between buses so we can fit everyone in and buses can get out if need be. Once the 3A Band parking area has cleared enough, drive down the entry driveway to the bus/band lot and park as instructed.
