

1) I tried Zoom, Google Meet, Google Duo, Whatapp, Kakao Video Call, FaceTime

- Zoom works better,
- When Zoom is unstable, I use FaceTime

2) arco vs. pizz

- As Zoom is more sensitive to human voices than instrumental sound, I often experience that musical demonstrations are interrupted.
- When I tried both pizz & arco with the same music, pizz worked better than arco for group lessons.
- When I play pizzcato, I was able to hear the sounds from most of the students, so I do , for example, #1,2,3 with pizz, then #4, 5 (or segments) with arco for group demonstrations of the string methods like Essential Elements, Suzuki, Hrimaly, Wohlfhart, Hohmann, Kaiser, Carl Ffresh, or Cevcik (for orchestra, violin 1 pizz & violin 2 arco; vice versa)

**Dr. Gene Chung**

Instrumental Music Director
